If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Todd A. Rathe on 20 May 2008.

The application has been amended as follows:

IN THE CLAIMS

In Claim 1, line 9, after the word "conveyor", the word - - belt - - has been added.

In Claim 1, lines 11-12, after the phrase "wherein the cups", the phrase - - are configured to - - has been deleted.

The following is an examiner's statement of reasons for allowance:

Applicant's and Examiner's amendments and arguments have overcome the 35 U.S.C. § 103 rejections of the previous office action. Further, independent Claims 1, 12 and 13 overcome the prior art since they require that the cups or coupling members are in first and second planes or distances from the axis of rotation and that the cups or coupling members engage or adhere to the medium or print media as the medium or

print media is **on the drum**. (Note: in Claim 13, the medium is construed to be entirely on the drum such that the medium is on a portion of the drum's arc support when the suction members first adhere to the medium on the drum.)

The prior art of record does not disclose this combination of limitations in independent Claims 1, 12 and 13. For example, US Patent No. 5,454,312 to Helmstaedter et al. does not disclose the cups in first and second planes. Further, US Patent No. 2,231,339 to Krueger discloses cups in first and second planes. However, there is no *rationale* to combine the references since sheets **are** picked up by cups 90 from a stack on 30 in Krueger (in order to feed only one sheet and not two (see Claim 7, last 3 lines)) while paper **is** picked up by cups 10 from drum 3 in Helmstaedter. Finally, references such as US Patent No. 5,186,107 to Wieland and US Patent No. 4,024,814 to Becker disclose the need to tighten the paper onto the drum instead of bending, or warping it. Also, in Helmstaedter, item 4 is a conveyor drum, not a conveyor belt. Similarly, other prior references do not disclose all the limitations of the independent claims. Therefore, independent Claims 1, 12 and 13 are allowed.

Independent Claims 10 and 18 overcome the prior art since they require that the cups or coupling members are in first and second planes or distances from the axis of rotation and that the cups or coupling members rotate independently.

The prior art of record does not disclose this combination of limitations in independent Claims 10 and 18. For example, US Patent No. 6,438,352 to Landa et al. does not disclose the cups in first and second planes. Further, US Patent No.

2,231,339 to Krueger discloses cups in first and second planes. However, there is no *rationale* to combine the references since sheets **are** picked up by cups 90 from a stack on 30 in Krueger (in order to feed only one sheet and not two (see Claim 7, last 3 lines)) while paper **is** picked up by vacuum pick-up arms A and B from drum 42 in Landa. Further, the doubling of suction lines (one for cups 90 and one for opening 88 of Krueger) that are necessary for cups 90 to function as disclosed in Krueger may not function in Landa since A & B rotate in opposite directions and disk 215 of Landa only rotates relative to A and not B (disk 215 of Landa is the functional equivalent of plate 95 (Fig. 8) of Krueger). Similarly, other prior references do not disclose all the limitations of the independent claims. Therefore, independent Claims 10 and 18 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to GERALD W. MCCLAIN whose telephone number is (571)272-7803. The examiner can normally be reached on Monday through Friday from 7:30 a.m. to 4:00 p.m..
